## TRI-FLAME 60

### YOUR CATERER AND RENTAL SOLUTION

- Invest in 1 unit and have 3 options: Hog Roaster, Chicken Cooker & Direct Grill.
- Invest in 3 units and have 1 of each, 3 of each, or 1 of 1 and 2 of another.
- For multiple units you do not need to invest in all the options for all units, they interchange.

### GRILL

### SMOKER / ROASTER

### CHICKEN COOKER

# EXCLUSIVE FEATURES OF THE TRI-FLAME 60

## CHICKEN COOKER

- A very unique design allows this unit to utilize a 1350 square inch chicken turner without compromising draft control for low and slow cooks. Approximately 40 lbs. of boneless/skinless chicken thighs or 60 lbs. bone in.
- A simple locking system holds turner in place when loaded unevenly. Turner grate stays level when changing ends for an extra consistent finishing cook.
- Roasting hood allows to flip grates without opening lid, which means no heat loss.
- Turner grate has a 3 locking system to keep the loaded grate stable when flipping.

## SMOKER / ROASTER

- Works great for whole hog, pork butts, ribs, briskets or anything done indirect, low and slow.
- The drip pan can be used as a water drip pan or use the drip pan featuring an exterior grease drain.
- The roasting hood allows for a second tier rack for more volume.
- Good draft control for that 12+ hour cook.
